- **Databases:** MySQL
- **Testing:** Jest
- **Deployment & Development Tools:** Heroku, Git, Backstage
- **Other skills:** Cybersecurity, Linux, Python
- **Familiarity:** Angular, Docker, Django

PROFILE

As a recent graduate of BrainStation's comprehensive boot camp program, I am a highly skilled software engineer with a strong focus on front-end and back-end development. With expertise in modern front-end technologies, I have the ability to create visually appealing and intuitive user interfaces using React. On the back-end, I am proficient in using Node.js and have experience working with databases and API integrations. Additionally, my knowledge of DevOps practices allows me to effectively collaborate with cross-functional teams and ensure seamless deployment and maintenance of software systems. With strong attention to detail and a passion for creating high-quality code, I am dedicated to delivering exceptional user experiences and driving innovation in the software engineering field.
